Run No. 2176 – RooTed's Reabold Romp

Preamble:

Due to a Senior Moment I didn't make it to the Run but it wasn't for the want of trying. Having put the directions in the Rag, I left home confident in the knowledge that I knew where I was going. I arrived at what I thought was the nominated spot at 5.45pm fully expecting to see that Bloo had beaten me the punch as per usual. Wrong. Sat there for 15 minutes and began to have serious doubts concerning my sanity (others have been way ahead of me for years). Decided to explore a few more Carparks along Perry Lakes Drive to no avail. In hindsight the one that I neglected to visit was the very one that I should have. Having left my phone at Home Plan B was not an option. Decamped about 6.10pm and headed Home. A belated check of the directions in the Rag mentioned Camel Lake which had failed to register previously. For some reason I had West Lake in mind which Pyro informed me this morning was the site for the Drink Stop. At least I'd left the Cash Tin with Orig. so I hadn't phucked up completely.
